Reiki

1st Degree
Workshop

"Embrace the
Relationship"

Recognize your own healing potential
and help yourself to heal physically,
mentally, emotionally and spiritually.

The path of Reiki is a unique and individual. It is first and foremost for you. Reiki is a simple "practice" to be lived simply.

The context of a first degree class allows the student to accept, honor, and develop this gentle, loving and powerful healing energy. You will experience three "initiations". A fine tuning of your energy potential.

We will share experiences and learning of how to create inner balance and harmony for yourself, having more positive impact on your world.

We will share knowledge of 'technique' and 'practice's' of Reiki and the experience of 'hands on'.

Through practice you will grow in your experience of love and acceptance and attain greater perception of energy transfer.

We will study and embrace the PRECEPTS of REIKI for conscious living.....

...the FOUNDATION to living in peace and harmony and for developing strenght and purity in our flow of REIKI

Reiki practice helps eliminate accumulated daily stress and can energize your entire system, quickly and easily.

Reiki practice works with and accelerates any and all other complimentary and medical treatments.

Reiki practice promotes from within you the qualities of loving, caring, compassion, spiritual growth, trust, self awareness, wholeness, peace and serenity.

Your investment in your Reiki Workshop is an investment in your life!
